

Pegasus P11D Organiser (2019.2.1)

Release communication

This release includes HMRC approved P11D/P11D(b) forms and Filing submissions for the 2018-19 tax year, and P46(car) form and submission for the 2019-20 tax year.

Also included are a number of legislative changes for the 2019-20 tax year and other software improvements.

Legislative changes for the 2019-20 tax year

- The company car fuel multiplier has increased from £23,400 to £24,100.
- The diesel supplement remains at 4% for all diesel cars not certified to the *Real Driving Emissions 2 (RDE2)* standard.
- Set company car appropriate percentages has changed to 16% for cars with CO2 emissions of 0-50g/km. All other rates have increased by 3% reaching the maximum of 37% for emissions of 165g/km or more (excluding diesel cars, not RDE2 compliant, which is reached by 145g/km due to supplements).
- The van benefit charge has increased from £3,350 to £3,430, and the van fuel benefit charge has increased to £655. The van and van fuel benefit charges for zero emission vehicles is 60% of the standard van benefit charge.
- A new Fuel Type `F` has been introduced. This applies to diesel cars which are 'Euro 6 Standard/Real Driving Emissions Step 2' compliant.
- The Appropriate Percentages for vehicles with no approved CO2 value have been updated – 37% for over 2000cc, 34% for 1401cc to 2000cc and 23% for 1400cc and below.

Software improvements

- To comply with General Data Protection Regulations (GDPR), the *System Admin* functionality in a user's profile now provides additional settings on the *Security* tab for password security. The *Security* tab also includes a new *Change Password* screen plus settings for password security.
- A new *Login* screen allows the option to login with either an email address or User ID.
- Improved validation and messaging has been included in areas based on common sense scenarios – not allowing the provision of a fuel card benefit for company cars/vans where the vehicle is electric.
- The National Insurance Number can now be hidden in an *Employee's Benefit Statement*.

- How information is presented has changed on the following screens:
 - The *User Administrator* screen now includes new security settings to validate that passwords have special characters, lower and upper case characters, and numeric characters.
 - The display of the *Benefit Section Summary* screens is now uniform across all sections.
 - New *Email Configuration* and *System Configuration* screens are available from the Admin menu.
- The *Benefit Statement* presentation has been revised when fuel is provided with a company car and the benefit is payrolled, and it is in excess of the car benefit.
- The employee details used for the password make up to open an emailed benefit statement (Payroll Number, National Insurance Number and Date of Birth) are now stored together in the Personal section of the employee details view.
- Technical improvements:
 - The progress bar shown during the software download has been improved.
 - The Amyuni software has been uplifted to version 6. This is used to create PDF documents.

Pegasus P11D Organiser is sold and supported as a stand-alone PC installation only.
